

ROCKET AIR Supply

Division of RKR Technologies LTD

Conflict Minerals Policy

Rocket Air Supply is fully committed to compliance with the U.S. legislation and SEC rules regarding the supply of “Conflict Minerals”.

We are dedicated to the responsible sourcing of all our materials purchased to assure none of these minerals (tin, tantalum, tungsten and gold) “3T&G” are purchased from the Democratic Republic of the Congo or adjoining countries. Rocket Air Supply supports the objectives of the SEC’s rules and will perform all necessary actions in order to avoid use of “Conflict Minerals” in our products.

We are actively involved with our suppliers to assure we meet the requirements of these rules and have received complete cooperation with those suppliers in achieving our goal of the elimination of these minerals from our products.

This is our commitment today, and will continue to be our commitment in the future.

Regards,

Rocket Air Supply
